

et al.05.2021

Dear customers,

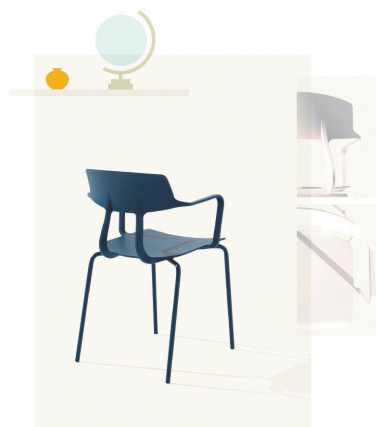

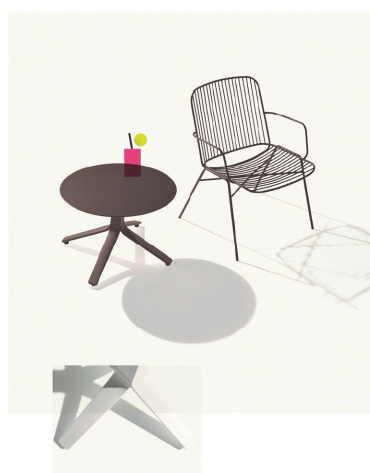

we are pleased to make available to you the new General Catalogue Et al., **renewed in its graphics**, always edited by Leonardo Sonnoli and Irene Bacchi (Studio Sonnoli), with images by Massimo Gardone.

The catalogue contains the entire range of our products, including the latest collections designed by Francesco Meda, Luca Nichetto, Francesco Faccin and Lorenzo Damiani.

An important novelty of this edition, **a completely revisited range of finishes**, the result of the synergy with the strategic design studio Baolab, specialized in the discipline of CMF (colours, materials, finishes), a collaboration that marks a further evolution by Et al. in interpreting contemporaneity following a well-defined identity path.

The 2021/2022 Catalogue complements the 04/2021 price list already in force and available in the reserved area of the site.

We inform you that the paper version of the catalogue and price list will be delivered by our managers upon request.
