Lightness, sturdiness and comfort; **Palau** monobloc collection by Marc Sadler combines aesthetic perfection and functionality, providing solutions to easily furnish all kind of environments like communal spaces, offices and meeting rooms, Food & Beverage premises, indoors and outdoors.

Available as side **chair** and **armchair**, characterized by elegant armrests, Palau conveys a feeling of lightness at first glance thanks to its clean and minimalistic yet svelte design.

Palau 1020
Monobloc chair in polypropylene made using the injected airmoulding technology.

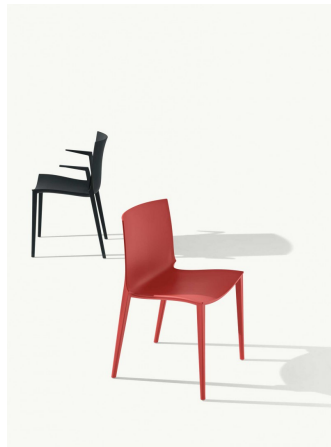

Palau 1021
Monobloc armchair in polypropylene made using the injected air-moulding technology.

reddot winner 2020

Palau has been awarded the prestigious **Red Dot Award** - Product Design 2020.

The statement by the Red Dot jury on the product: *"An aesthetic shaped by airiness combines with practical features to make the Palau chair a highly versatile piece of furniture"* . [> read more](#)

The **wide seat**, laying onto four tapered legs, is thin and **enveloping** to ensure maximum **comfort** and **ergonomics**.

A chair with **reduced thicknesses** but at the same time with an **extreme sturdiness**, normally for the same technical features it requires greater geometries and thicknesses.

The **armrests** in the armchair version have a particular design that **crosses the surface** of the seat, fitting perfectly in line with the rear legs.

Palau is available in **6 different colours**.
6 pcs stackable in both version with or without armrest.
