Metalmobil presents Shade, the new chair designed by Philippe Nigro

Read 0 times

13/07/2018 - All public and gathering spaces have become central to our lives, increasingly becoming emotional extensions of our own homes. For the 2018 collection, **Metalmobil** presents **Shade**, the new chair designed by French designer **Philippe Nigro**. Created for contract and outdoor spaces, Shade expresses dynamism, extreme versatility and a solid aesthetic identity.

'Working with a typically industrial material, I designed a seat taking inspiration from the creation of some of the great engineering works', says Nigro. 'In fact, Shade is a micro architecture of steel tubes and wire that have been welded together to create a graphical and optical
