seats for living

nomad+

Dall'esperienza della collezione Nomad nasce il sistema di divani **Nomad+** che esplora nuove geometrie e rafforza il suo spirito originario: cosmopolita e accogliente.

Con l'evoluzione del design, Nomad+ introduce soluzioni estetiche e funzionali che ne ampliano le possibilità d'uso.

nomad+ 833

Nomad+ è un sistema versatile e modulare, pensato per dare forma ad ambienti ospitali.

Le configurazioni strutturali che definiscono l'identità di Nomad+ sono due:

la **versione con braccioli**, in cui l'elemento laterale si prolunga fino a terra diventando appoggio e segno architettonico;

la **versione senza braccioli**, in cui il piede resta sotto la seduta come sostegno, lasciando un'apertura visiva.

Questa doppia modalità genera una famiglia di **divani a due o tre posti**.

La collezione si completa con dettagli progettati per il comfort e la funzionalità: **cuscino laterale** nei moduli divano con braccioli e **prese Schuko** e **USB** integrate.

nomad+ la poltrona

Alla famiglia di divani si abbina la **poltrona** per offrire maggiore espressione compositiva all'interno dello spazio.

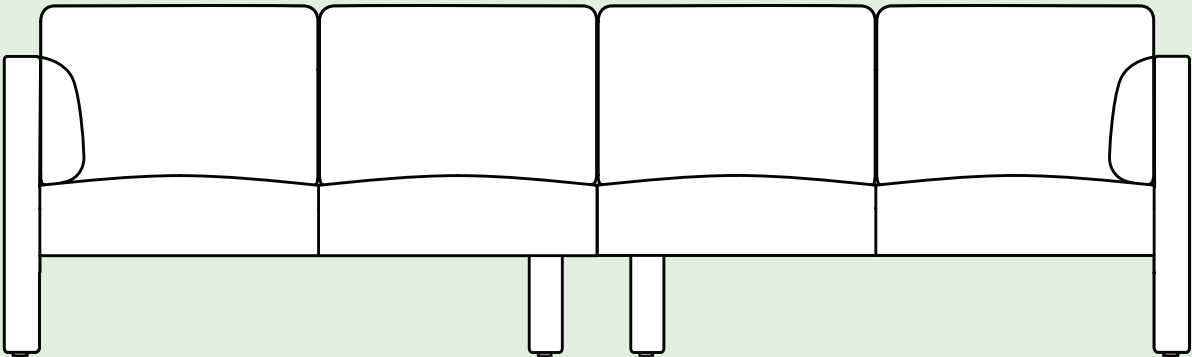

nomad+

le versioni componibili

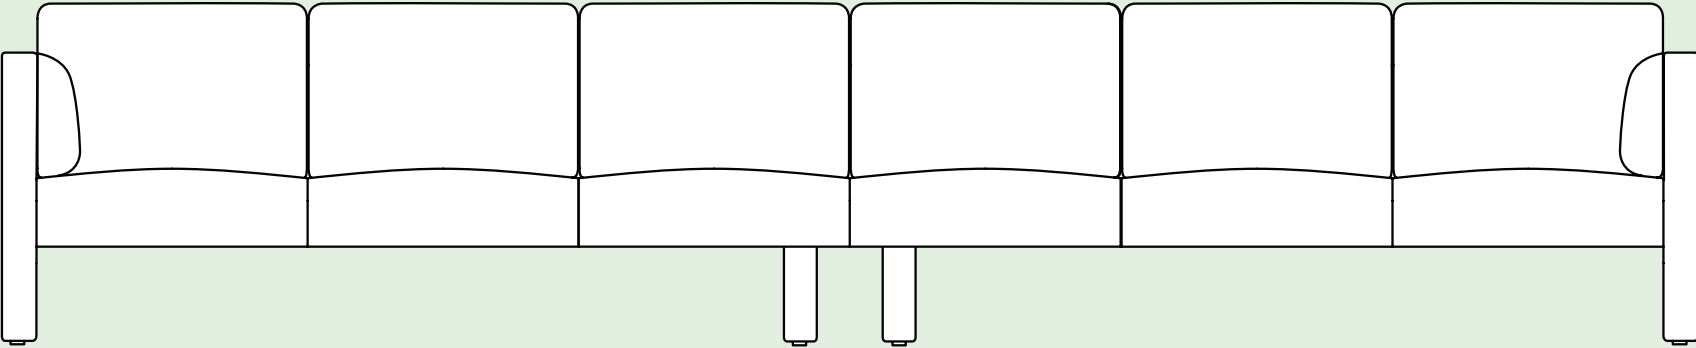

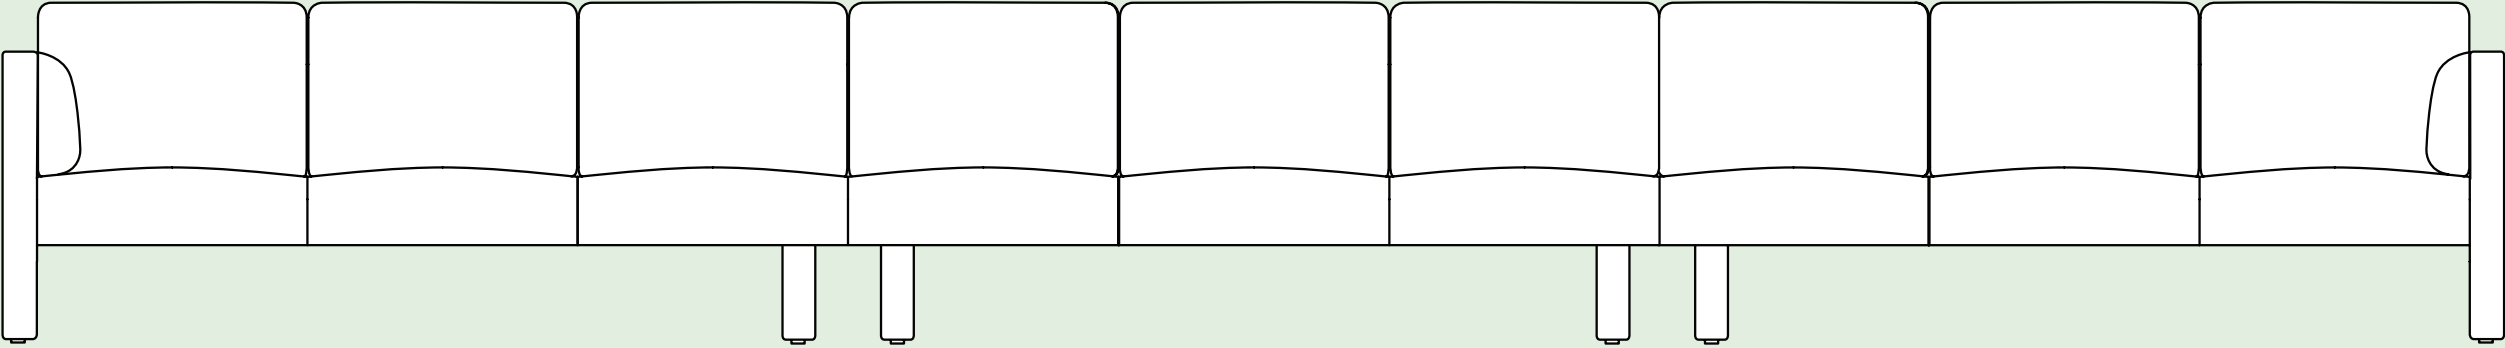

I moduli divano possono combinarsi in composizioni potenzialmente infinite.
